Overview

VES will handle and manage your Virtual Event up to **250 online participants** as it is simply a meeting that happens online rather than physically with all the participants in the same meeting room. Virtual meeting tools include question & answer sessions, voting capabilities and other tools you've probably heard of like GoToMeeting, Google Hangouts, Microsoft Teams, Zoom, and Skype.

Goals

1. Online meeting handling from inviting participants, managing registration & sending reminders.
2. Organize and manage online events from setting up platforms, Q&A, voting sessions and technical inquiries.

Specifications

Using the Premium Google Meet platform as the hosting platform will give you better Secure video meetings for your business. Keep your participants connected with enterprise-grade video conferencing built on Google's robust and secure global infrastructure.

Recording

Your online meeting can be recorded using cloud Google cloud services for up to 24 hours.

Milestones

I. Trusted by enterprises around the world

Take advantage of the same secure-by-design infrastructure, built-in protection and global network that Google uses to secure your information and safeguard your privacy. Meet video meetings are [encrypted](#) in transit and our array of default-on anti-abuse measures keep your meetings safe.

II. Designed to be helpful.

Join meetings directly from a [Calendar](#) event, an email invite, or directly from Gmail. All of the event details are right there when you need them, whether you're joining from a computer, phone, or [conference room](#). Helpful features like live captions, low-light mode, and noise cancellation make meetings more productive.

III. Useful Engagement Tools.

A. Breakout rooms.

B. Chats.

C. Polls

Q&A

Help everyone to understand more
Let others ask questions that everyone
can see and hear your answers to

Turn on Q&A

E. Whiteboarding

Conclusion

VES will give you the ultimate solution to run your meetings with ease and efficiently. The hosting platform will give you better Secure video meetings for your business. Keep your participants connected with enterprise-grade video conferencing.

Do I need to install anything?

For users on Chrome, Firefox, Safari and new Edge, we don't require or ask for any plugins or software to be installed, Meet works entirely in the browser. This limits the attack surface for Meet and the need to push out frequent security patches on end-user machines. On mobile, we ask that you install the Meet app from Apple App Store or the Google Play Store.
